Alentejo - Alex Robinson 2019-05-05

Bradt's Alentejo remains the only standalone guide to this emerging region, providing all the information needed to find that idyllic rural retreat, beachside boutique or romantic hotel set in a converted palace. Restaurants, wines, cafes and cultural sights have all been meticulously chosen and reviewed by the author and there is a wealth of background cultural and historical information to unlock the secrets of the Alentejo's colourful past and captivating present. This new second edition has been thoroughly updated to reflect all the most recent developments and includes a new section on castle towns, expanded information on Alandroal and Juromenha, new coverage of Alegrete and the Serra de Sao Mamede and new features on everything from The Siege of Badajoz to Alentejo wild flowers, Portuguese grape varieties and the Rebel Prince of Marvão amongst others. More hotels and tours have also been added, especially around Évora, Monsaraz and Marvão. The Alentejo is Portugal's Andalusia - without the crowds - a landscape littered with Moorish monuments, sleepy villages and Crusader castles. The beaches are glorious sweeps of white sand, broken by rocky coves nested by storks, or backed by caramel coloured sandstone cliffs. The towns and villages of the interior appear little-changed since medieval times - clusters of sugar-cube houses tumble down hills from heavy-set castles. There are palaces and there are myriad megalithic monuments - lost in the rolling countryside in the olive groves, or among orange trees and withered cork oaks. Wild boar and lynx roam the extensive forests and heathlands - which offer wonderful hiking and hill walking. And the food. fresh Atlantic bream, sizzling prawns, forest-reared pork and dozens of glorious wines with which to wash it down. Expert author and fluent Portuguese speaker Alex Robinson has been visiting, writing and photographing Portugal for more than 20 years and in this new edition has evolved his guide to the Alentejo even further to make an ideal companion for a successful trip whatever your interest, age or budget: hikers, wine and food lovers, weekend travellers, history enthusiasts and those looking for a second home are all catered for.

personal journey of discovery involving encounters with racism, air rifle-toting youths, girls, alcohol, music, finding urban wildlife oases and of course, birds. David Lindo's story is entertaining and sometimes controversial, but the one guarantee is that the reader will be left feeling inspired enough to pick up a pair of binoculars and head to the nearest park.

Birds of Nicaragua - Liliana Chavarría-Duriaux 2018-05-15

Birders in Central America have long known that Nicaragua is one of the best birding locations in the world, and with tourism to the country on the upswing, birders from the rest of the world are now coming to the same conclusion. The largest country in Central America, Nicaragua is home to 763 resident and passage birds, by latest count. Because of its unique topography—the country is relatively flat compared to its mountainous neighbors to the north and south—it forms a geographical barrier of sorts, which means that many birds that originate in North America reach their southernmost point in Nicaragua, while many birds from South America reach their northernmost point in the country. There are few places in the world where you can find both a Roadrunner and a Scarlet Macaw. *Birds of Nicaragua* features descriptions and illustrations of all 763 species currently identified in the country, along with information about 44 additional species that are likely to appear in the coming years. Range maps, based on years of field research, are color-coded. Other features include a richly illustrated anatomical features section, a checklist, a visual guide to vultures and raptors in flight, and a quick-find index.
