The text discusses how ecotourism and sustainable tourism can assist in supporting and meeting the MDG by drawing on case studies and examples. In this edition you will find: - Historical perspective of the development of ecotourism and sustainable tourism - The Millennium Development Goals defined - Overview of how ecotourism and sustainable tourism can assist in meeting the goals of the MDG - Engaging case studies and examples to reinforce the concept

Tourism and the Millennium Development Goals - Jarkko Saarinen 2013-10-31  
In 2000 United Nations adopted the Millennium Development Goals (UN MDGs), committing the member nations to a new global partnership to reduce extreme poverty and setting out a series of specific targets with a deadline of 2015. Related to the UN MDGs, tourism is increasingly seen as a promising tool for poverty reduction, ensuring environmental sustainability and developing a global partnership for development, for example. Thus, the industry has become an important policy tool for community and regional development in many developing countries and the expectations for tourism and its social and economic outcomes have evolved to a high level. However, there are still many challenges to overcome in the relationship between tourism industry, development and poverty reduction. This book aims to discuss the promises, challenges and outcomes of tourism in development with a specific aim of drawing together research related to tourism and UN MDGs. The papers discuss what lessons can be learnt and conclusions drawn from the utilisation of tourism for development and poverty reduction. What emerges from this collection is a set of interesting results and notions which both support and challenge the connections between tourism and development and the new role of tourism in global development. This book is an extended version of a special issue published in Current Issues in Tourism.

**Whatever You Do, Don't Run** - Peter Allison 2007-10-01

A hilarious, highly original collection of essays based on the Botswana truism: "only food runs!" In the tradition of Bill Bryson, a new writer brings us the lively adventures and biting wit of an African safari guide. Peter Allison gives us the guide's-eye view of living in the bush, confronting the world's fiercest terrain of wild animals and, most challenging of all, managing herds of gaping tourists. Passionate for the animals of the Kalahari, Allison works as a top safari guide in the wildlife-rich Okavango Delta. As he serves the whims of his wealthy clients, he often has to stop the impulse to run as far away from them as he can, as these tourists are sometimes more dangerous than a pride of lions. No one could make up these outrageous-but-true tales: the young woman who rejected the recommended safari-friendly khaki to wear a more "fashionable" hot pink ensemble; the lost tourist who happened to be drunk, half-naked, and a member of the British royal family; establishing a real friendship with the continent's most vicious animal; the Japanese tourist who requested a repeat performance of Allison's being charged by a lion so he could videotape it; and spending a crazy night in the wild after blowing a tire on a

tour bus, revealing that Allison has as much good-natured scorn for himself. The author's humor is exceeded only by his love and respect for the animals, and his goal is to limit any negative exposure to humans by planning trips that are minimally invasive—unfortunately it doesn't always work out that way! Peter Allison is originally from Sydney, Australia. His safaris have been featured in National Geographic, Conde Nast Traveler, and on television programs such as Jack Hanna's Animal Adventures. He travels frequently to speaking appearances, and splits most of his time between Botswana, Sydney, and San Francisco.

**Namibia** - Chris McIntyre 2019-08-05

This new thoroughly updated edition of Bradt's Namibia remains the essential guide for a successful visit to this vast country - more than twice the size of Germany but with less than 3% of the population. Written by expert author and long-standing tour specialist Chris McIntyre, this sixth edition incorporates all the most recent changes, including unrivalled coverage of places to stay and eat, from small, personal guesthouses to classy hotels and upmarket game

lodges, and detailed information for self-drivers (including personally researched and checked GPS coordinates) as well as for fly-in and guided safaris. There's also in-depth coverage of wildlife and where to see it, including a new full-colour wildlife field guide section, covering mammals, reptiles and amphibians, marine life and birds. Two background chapters covering everything from history and politics to people, ethnic groups and culture are complemented by two chapters on planning, preparation, health and safety and two on the practicalities of getting around and camping and walking in the bush (including canoeing). Helping you to discover Namibia in detail, 13 chapters offer a regional breakdown, from the capital, Windhoek to the Southern Kalahari, Namib desert, Swakopmund, Skeleton Coast, Etosha National Park, and the Kavango and Zambezi regions in the extreme northeast, including excursions into neighbouring Botswana. With sweeping landscapes and empty roads, Namibia has long captured the imaginations of travellers and photographers. Its immense emptiness offers majestic sand dunes, seemingly endless gravel plains, vast tracts of farmland and rugged mountains hiding galleries of ancient Bushman rock art. Add to this the wildlife and the unexpected beauty of the rivers that define the country's northern and southern boundaries, and it's easy to see why Namibia attracts lovers of the great outdoors.

Touring Katutura! - Steinbrink, Malte 2016-11-28

Guided sightseeing tours of the former township of Katutura have been offered in Windhoek since the mid-1990s. City tourism in the Namibian capital had thus become, at quite an early point in time, part of the trend towards utilising poor urban areas for purposes of tourism – a trend that set in at the beginning of the same decade. Frequently referred to as “slum tourism” or “poverty tourism”, the phenomenon of guided tours around places of poverty has not only been causing some media sensation and much public outrage since its emergence; in the past few years, it has developed into a vital field of scientific research, too. “Global Slumming” provides the grounds for a rethinking of the relationship between poverty and tourism in world society. This book is the outcome of a study project of the Institute of Geography at the School of Cultural Studies and Social Science of the University of Osnabrueck, Germany. It represents the first empirical case study on township tourism in Namibia. It focuses on four aspects: 1. Emergence, development and (market) structure of township tourism in Windhoek 2. Expectations/imaginations, representations as well as perceptions of the township and its inhabitants from the tourist's

perspective 3. Perception and assessment of township tourism from the residents' perspective 4. Local economic effects and the poverty-alleviating impact of township tourism The aim is to make an empirical contribution to the discussion around the tourism-poverty nexus and to an understanding of the global phenomenon of urban poverty tourism.

The Ju/'hoan San of Nyae Nyae and Namibian Independence - Megan Biesele

2010-11-01

The Ju/'hoan San, or Ju/'hoansi, of Namibia and Botswana are perhaps the most fully described indigenous people in all of anthropology. This is the story of how this group of former hunter-gatherers, speaking an exotic click language, formed a grassroots movement that led them to become a dynamic part of the new nation that grew from the ashes of apartheid South West Africa. While coverage of this group in the writings of Richard Lee, Lorna Marshall, Elizabeth Marshall Thomas, and films by John Marshall includes extensive information on their traditional ways of life, this book continues the story as it has unfolded since 1990. Peopled with accounts of and from contemporary Ju/'hoan people, the book gives newly-literate Ju/'hoansi the chance to address the world with their own voices. In doing so, the images and myths of the Ju/'hoan and other San (previously called "Bushmen") as either noble savages or helpless victims are discredited. This important book demonstrates the responsiveness of current anthropological advocacy to the aspirations of one of the best-known indigenous societies.
